JL - Remember my saying after I remembered my meeting with Dorland about 1928 that I had to get together with him before he left town? He called me today with his trader loaded, we spoke almost 1½ hours and it is too bad that I did not get together. It would be good to be able to go over the memos he gave CTH, Bud & Bob. Any way, it would seem to be the 5th floor at 1750 Penna. NW. He does have some pretty far-out notions but mixed with it is good, solid fruit. I think we should get together on this as soon as possible - here. Perhaps after you get the government answer on the new suit... He suggests to Newman was CIA / Newman provided publication of White Paper winter 1965. thx 2/8/74
